

Hub API for ShuleOne

Production: <https://sla-hub-nu.vercel.app>

Local: <http://localhost:3100>

Version v1 · Read-only · Verified 2 October 2026 (11 / 11 checks passed)

This API feeds workplace people and system metadata from SLA Hub into ShuleOne. It never returns passwords, OTP codes, session secrets, or documents.

Authentication

Every `/api/v1` request needs:

```
Authorization: Bearer YOUR_HUB_API_KEY
```

Ask Silverleaf for the key. Do not put it in git or in this document. GET `/api/health` is public.

HTTP	When
401	Missing or wrong key
404	Person email not found
429	More than 60 requests per minute per IP
502	Directory briefly unreachable
503	HUB_API_KEY is not set on the hub

Stable key for ShuleOne

Upsert people on email (lowercase). People routes only return addresses that contain @.

```
{
  "ok": true,
  "source": "sla-hub",
  "generatedAt": "2026-10-02T03:40:00.000Z",
  "count": 2,
  "data": []
}
```

Endpoints

1. GET `/api/health`

Liveness. No key. Verified 200, database: true.

```
{ "status": "ok", "database": true }
```

2. GET `/api/v1`

Catalog. Requires the key. Lists every path below.

3. GET `/api/v1/people`

Cross-app directory. Query: campus, app, q, since, limit (max 500, default 200), offset.

```
curl -H "Authorization: Bearer $HUB_API_KEY" \
  "https://sla-hub-nu.vercel.app/api/v1/people?app=onboarding&limit=200"
```

```
{
  "id": "a***@silverleaf.co.tz",
  "email": "a***@silverleaf.co.tz",
  "fullName": "A***",
  "jobTitle": "Teacher",
  "campus": "Main",
  "apps": ["onboarding"],
  "lastSeen": "2026-09-30T12:00:00.000Z"
}
```

id equals email. Filter app with: onboarding, ops, data_tech, workboard, marketing, talent, uniforms, visitors, lesson_plans, mel.

4. GET /api/v1/people/{email}

One person. URL-encode the email. 200 if found, 404 if not.

5. GET /api/v1/staff

Onboarding staff only (start dates, last active). Query: campus, q, limit, offset. Prefer /people for the full directory.

```
{
  "id": "uuid",
  "email": "a***@silverleaf.co.tz",
  "fullName": "A***",
  "campus": "Main",
  "jobTitle": "Teacher",
  "lastActiveAt": "2026-09-30T12:00:00.000Z",
  "startedAt": "2026-01-15T08:00:00.000Z",
  "createdAt": "2026-01-10T08:00:00.000Z"
}
```

6. GET /api/v1/campuses

Distinct campuses. Verified 200, currently includes Main.

7. GET /api/v1/systems

11 workplace systems (verified).

id	Name	Live site
hub	Hub / Code	https://sla-hub-nu.vercel.app
ops	Ops	https://ops-transport-system.vercel.app
onboarding	Onboarding	https://onboarding.silverleaf.co.tz
marketing	Marketing	https://sla-marketing-web.vercel.app
data-tech	Data & Tech	https://dataandtech.silverleaf.co.tz
talent-academy	Talent Academy	https://talent-academy-sla.vercel.app
uniforms	Uniforms	https://school-uniforms-lyart.vercel.app

visitors	Visitors	https://v-isitors.vercel.app
workboard-tasks	Workboard Tasks	https://silverleaf-tasks.vercel.app
lesson-plans	Lesson Plans	https://silverleaf-lesson-plans-main.vercel.app
mel-dashboard	MEL Dashboard	https://silverleafmeldashboard-production.up.railway.app

Suggested ShuleOne sync

1. Keep HUB_API_KEY only on the ShuleOne server.
2. Poll GET /api/v1/people (use since after the first full pull).
3. Upsert each row on email.
4. Map jobTitle and campus onto ShuleOne staff fields.
5. Do not call hub admin, hiring, or bio routes.

Verification — 2 October 2026

Checked against http://127.0.0.1:3100 with a valid local key.

Check	Result
GET /api/health (no key)	200 PASS
GET /api/v1 (no key)	401 PASS
GET /api/v1 (bad key)	401 PASS
GET /api/v1 catalog	200 PASS
GET /api/v1/people?limit=2	200 PASS
GET /api/v1/people?app=onboarding	200 PASS
GET /api/v1/people/{email}	200 PASS
GET /api/v1/people missing email	404 PASS
GET /api/v1/staff?limit=2	200 PASS
GET /api/v1/campuses	200 PASS
GET /api/v1/systems	200 PASS · 11 systems

Production needs the same HUB_API_KEY on the sla-hub Vercel project before ShuleOne can call https://sla-hub-nu.vercel.app.
